WILL BUY OR BUILD

DECISION REACHER AT CONFERENCE THURSDAY AFTERNOON.

TO PUSH THINGS ALONG

Board of Public Works, Sure of Its Ground Now, Will Waste no Unnecessary Time.

Since the board of public works received an opinion from their bond attorneys at Chicago that all of the proceedings of the council in regard to the bond issue were legal and that the bonds were approved, now it will be decided whether to buy the old plant or build a new plant.

So a meeting was held Thursday evening by the board of public works with the city council and the board informed the council what they had done. They gave them the reports of the engineers, the plans formulated for a new water plant, that the water company wants $54,000 for their plant, and that the engineers valued the plant at $39,000, and that it would take $90,000 to construct a new plant here. If a new plant is built the board has options on several sites.

The board within the next few days will hold another meeting with the water company, and if they don't come to time then the board will go ahead with making arrangements for the construction of a new plant, and will have the council issue the bonds for that purpose. When the council acts, if it should, for the construction of a new plant, then it will be too late to change to buy the old plant. This will also be the case if they decide to buy the old plant. So it is now either buy or build, and this matter will be decided by what course the water company will take.

PLAYER TO BROTHERHOOD.

Fine Musical Instrument to Men's Organization of the Presbyterian Church of Hopkins.

The Field-Lippman piano store has placed a player piano in the Presbyterian church parlors at Hopkins, purchased by the brotherhood of that church, one of the strongest churchmen's social organization of any church in Northwest Missouri.

Manager H. R. Hancock of the Field-Lippman store is to give a series of recitals on the player piano for this brotherhood, beginning some time the last of October or the first of November, and will be assisted by talent from Hopkins and Maryville. Some very nice social affairs are being planned by the men of the Hopkins church for the coming year.

IS IT HYDROPHOBIA.

Sam Carrough Thinks That is What is Killing Some Horses.

Samuel Carrough, a well known stockman of Arkoe, who was at the stock yards in St. Joseph Thursday buying stock cattle, is inclined to the opinion that some of the deaths of horses reported in Northwest Missouri recently are the result of hydrophobia, says the Live Stock Journal.

"There is, as far as I have been able to find out, nothing to indicate that the horses which have died during the past week or two in Nodaway county were afflicted with the same disease that has been causing so much havoc in Kansas and Nebraska," said Mr. Carrough. "From what I have heard the horses that have died around Maryville had symptoms very similar to those manifested by hydrophobia in a herd of my cattle last winter. The cattle began dying of a strange disease last winter and I called five different veterinarians to treat the afflicted animals. Each of these had a different diagnosis and the cattle continued to die until I had lost eighteen. Finally two government men from the bureau of animal industry at South St. Joseph visited my farm to investigate the malady. Another steer was sick then and the experts killed it, cut it up and made a thorough examination without finding any trace of disease that might cause death. The brain and a few other vital organs of the animal were forwarded to Washington for further investigation. A few days later word came back that the biological experts had found that the cause of death was hydrophobia.

"My experience makes me think that at least some of the horses that have died were victims of hydrophobia."

DEATH OF MRS. WOLVERTON.

Passed Away in St. Joseph Wednesday Night—Funeral Held Friday Morning Near Hopkins.

The death of Mrs. James Wolverton, north of Hopkins, was a shock to her friends. Mrs. Wolverton was in her usual good health until last Friday night, when she was taken suddenly ill. The first of the week she was taken to Ensworth hospital at St. Joseph for an operation, and her friends expected a speedy recovery. However, a turn was taken for the worse, and Wednesday night she passed to the great beyond.

The remains were taken to Bedford Thursday noon, and from there to the home in the country. Mrs. Wolverton was a daughter of Mr. and Mrs. Jared of near Bedford, and was 24 years old. She leaves her husband, two children, aged 5 and 3 years, also her father and mother, three brothers, two sisters and a host of relatives and friends to mourn her untimely death.

The funeral services were held at the home Friday morning, burial in Hopkins cemetery.

A NEW LIGHT CONTRACT.

Present One for Street Lighting Will Expire in October—A White Way May Be Included.

In October the city council will probably make a new contract with the Electric Light company for street lights, as the present one will be out at that time. At present there are fifty-two arc light and sixty-seven incandescent lights in the city, which cost $385 a month.

Manager Hellmers stated Friday that the new contract with the city will be much cheaper in price than the old one. Another thing that will be taken into consideration in the new contract will be the proposed White Way for Main street.

The present contract was made with the city in October, 1907.

Returned From Montana.

Mr. and Mrs. S. C. Leach of Pickering returned Friday morning from a three weeks' trip to Fort Benton, Mont., visiting their daughters, Mrs. J. E. Kelley and Miss May Leech, who live nine miles east of Fort Benton. Miss Leech will prove up on her claim there the first of January and will then return home. Mr. and Mrs. Leech are delighted with the portion of Montana they visited, and say they have the finest gardens there that they ever saw, and brought home some potatoes that weigh two pounds each, a size no uncommon for garden raising there.

BUSTER BROWN IN TOWN.

Was Here Thursday and Gave Entertainment at Remus' Store—Tige Was Along.

Buster Brown of the Brown Shoe company of St. Louis was in Maryville Friday morning on his way to Savannah. He was dressed in a little gay red suit with brass buttons, red cap, black hose and the up-to-date boy's half shoes. He looked much older than he did a few years ago when he delighted the boys and girls of Maryville with himself and dog Tige. He seemed worn and tired this morning, and his little weazened face looked 70 years old. But he is as interesting as ever and was the special delight of some children at the train. He called all the little girls Mary Jane, of course, and had a pleasant word for them. He went about whistling, and when the train came in he went aboard singing, not to attract attention, apparently, but just because he is happy and couldn't help it.

Buster Brown is surely doing his part in the business world, for he carries into it the gospel of sunshine and good will wherever he goes. Men who were walking about the depot platform waiting for the train, eyes down, thinking about their business and not saying a word to any one, brightened up and smiled the instant Buster Brown appeared, and all were talking and watching him pleasantly as he darted about here and there looking about the checking of his baggage.

Buster Brown and his dog, Tige, gave a free entertainment at the C. F. Remus store on Thursday afternoon.

Is a Director in Elmo Bank.

Last week a deal was made whereby A. F. Harvey of this city, became owner of J. C. Colden's interest in the Farmers' and Merchants' bank of Elmo. Mr. Harvey was elected director of the bank in place of Mr. Colden, who resigned. The other directors of the bank are George P. Shoptaugh of Elmo, and S. G. Gillam of Maryville.

Mrs. W. A. Tindall and sons, Frank and Edward, went to St. Joseph Friday morning for a day's stay.

C. E. COLLINS ARRESTED.

The Charge is That He Made an Assault on His Daughter Last Week.

C. E. Collins of Graham was arrested Thursday by Deputy Sheriff Tilson on a charge of common assault, sworn out by his daughter, who alleged that her father struck her and beat her last week. It is also alleged that Collins was drunk at the time. Collins gave bond Thursday for $200 to appear at the November term of circuit court.

A divorce suit was also filed this week by Mrs. Collins against Mr. Collins, and the suit is an outcome of the assault made by him on their daughter. This case will also come up at the November term.

IN OLD KENTUCKY

MARYVILLE MAN HAS PLEASANT TRIP TO BLUE GRASS STATE.

VISITS HISTORIC HOUSE

Place is More Than a Century Old and is Rich With Reminiscences of the Revolution.

Speaking Tuesday of the chapter of the Daughters of the American Revolution about to be organized in Maryville reminded a reporter for The Democrat-Forum of a conversation he had a few days ago with Mr. George A. Pickens, just after his return from a business trip to Smith Mills, Henderson county, Kentucky.

Mr. Pickens' business trip there was in connection with one of the oldest and most historic homes in that county that is so rich in romance and history.

The residence is the occasional country home of two sisters, Miss Mary T. Burbank and Miss Anna Thurston Burbank, than whom it would be difficult to find any in all the land more eligible to membership in the Daughters of the American Revolution.

The Misses Burbank have a beautiful residence in Henderson, Ky., a few miles up the country from their country place. Henderson is a small city of 16,000, which is said to be the wealthiest town of its size in the United States.

The name of this country home of the Misses Burbank is "Sugar Tree Grove Farm." It contains 3,300 acres, and a part of the land is one of the original 1,000-acre tracts given to soldiers who fought all through the American Revolutionary war. The residence on the place is a typical plantation home and is over 100 years old. It is built of oak, every piece in it was sawed by hand, the window sash and door casings, and the ceiling grooved and beaded by hand.

The residence, the farm manager's cottage, servants' cottages, barns and granaries were fitted out with acetylene lighting.

Samuel Lowrey of Hopkins helped to install the plant in the residence and other buildings, and he said the old house is built like a battleship, and he thought he would never get through with his work there. The joists are of oak, 6x12 inches through.

The grounds are beautiful leading up to the residence, and about 100 yards in front of the house an old oak

BOUGHT MACHINERY

CONTRACT SIGNED BY LIGHT COMPANY FOR EQUIPMENT.

TO FURNISH HEAT OCT. 15

Work is to Commence at Once After Machinery is Received and Full Service Will Be Given.

A contract was signed Friday morning by the Electric Light company for the new machinery to be installed at the plant to furnish heat in the uptown business section of the city. The material and machinery will probably be here in ten days and work will commence at once to put it in so as service can start about the middle of October.

Enough customers were secured for the heat services as to warrant the investment by the light company. Many thousand dollars are to be spent on this service.

The conducts or mains are to be laid for the light plant to Main street along Fifth, and then on Main to the opera house block. From Main, the mains will be laid on Fourth to Market street, and also on Third to Buchanan street.

The light company was given permission by the council to use the streets to lay the mains after the company has put up sufficient bond that they would put back the streets in good condition.

DITCH IS NEARING QUITMAN.

Dredge Boat is Now Three Miles South of Burlington Junction.

The dredge boat on the Nodaway Drainage ditch is now working on the Fletcher Jones farm about a quarter of a mile south of the public road and about three miles southwest of Burlington Junction. The work has been delayed a little the past few days on account of the low stage of water in the new channel. To remedy this the force has been pumping water from the old channel into the new at the point on the Tibbetts farm, where the two channels run close together. They have been working the pump day and night and are getting sufficient water into the new channel to keep the big shovel right on the job.

It is probable that the Sternbergs will be given the contract for digging the ditch through the Bilby land, near Quitman, about a mile in length. Land owners in Monroe township are contemplating forming a company and engaging a dredge to straighten the channel from the Bilby land to a point south of Skidmore. If this should be done, Sternberg & Sons, in all probability, would receive the contract, as their machine would be right on the ground, and the moving of a dredge the size that is required to work in the Nodaway channel is a very expensive job.

Home From the Black Hills.

Miss Marie Byers returned Thursday night from a six weeks' trip to the Black Hills and various points in North and South Dakota. Miss Byers visited while in South Dakota at Rapid City, with the family of her father's nephew, Clay Oliver, who formerly lived in Maryville.

IS NOT CONTAGIOUS

VETERINARIAN SAYS NO DANGER OF DISEASE SPREADING.

SAFE TO BRING HORSES

Danger is Not From Infected Animals, But Comes From Pastures—Many Horses Are Dead.

"This horse disease is not a contagious disease and there is no danger of horses catching it from one another," said Dr. G. H. Leach, deputy state veterinary Friday morning.

Much fear had been entertained by the street fair committee in regard to the horse show that will take place on Wednesday and Thursday mornings that there would not be many to compete for the special premiums, but Dr. Leach said Friday that there is no more danger of the horse disease here than there is at home. He said:

"I considered it very safe to bring your horses to Maryville for the show next week. There is no danger at all and they will be as safe here as they are at home. The disease is not contagious, if it was it would spread through a whole herd of horses, instead of attacking one horse here and there."

There are no new cases, Dr. Leach said today.

The two horses that were sick at Pickering of the disease that is prevalent just now, owned by Ed Foreman and Johnson [illegible] were killed Friday [illegible] horse is reported [illegible] vicinity, owned [illegible] Skidmore has lost [illegible] two others sick, and Jose[illegible] of the same locality has one horse sick.

Following are those who have lost horses in the Burlington Junction locality from the disease: [illegible] W. W. Jones, Lem [illegible] Irvin Bailey, Dr. F. M. [illegible] man, Mr. Davis of [illegible] Two more of Mr. Bishop's horses are sick, and J. A. Speer, [illegible] Burlington Junction, has a [illegible] almost dead of the malady.

At Elmo this dreaded disease has killed a few horses. [illegible] E. A. Bailey, T. R. [illegible] Hooper, Bull Davis, [illegible] las Hurst and probably [illegible] had losses, and there may be [illegible] that we have not heard of.

PLAGUE IS NOT CONTAGIOUS.

State Veterinarian Reports Cause Probably Due to Feed or Water.

Regarding the horse plague, T. G. Wilson, secretary of the Missouri board of agriculture, issued the statement:

"Owing to the loss of many horses in Western Kansas and in a few other states there has been for several days some fear that it might become necessary for Missouri, through its board of agriculture, to institute a quarantine. However, at this time it is neither necessary nor advisable. Dr. G. Sheldon, state veterinarian for Missouri, who is now at Dodge City, [illegible] making a personal investigation as to the cause of the deaths among horses, has wired that he has been with government experts throughout the [illegible] and that it is the opinion of all that there is nothing to warrant a quarantine. The scientists who have been conducting the investigation are thoroughly convinced that [illegible] horse stock in the [illegible] is not caused by contagion, but grows out of [illegible] in the food or water supply."

Attended Funeral.

Mr. and Mrs. George Demott and daughter went to Hopkins Friday to attend the funeral of Mrs. W. [illegible] Miles, who died Wednesday morning.

The little boy who threw away his prize package in order to get a bigger one, and found that it was empty, can sympathize with the Republican county nominees who discarded the elephant for the bull moose and now find he is not big enough to carry all of them.

A few days ago prime sirloin of beef sold in London for 19½ cents per pound, and in New York on the same day for 28 cents per pound. The farmer gets the same price for his cattle whether the steak sells for 19 cents in London or 28 cents in this country. Owing to the blessings of a protective tariff he gets whatever the trust is disposed to give him, a price that will enable this benevolent trust to haul the meat to the seaboard and across three thousand miles of water and sell it at 9 cents a pound less than it can be sold for in our own country. Here is a "blessing" that should set both the buyer and producer of meat to thinking.

"The reporter's life is a happy one. When he suffers an indignity, the cause of that indignity is usually beneath consideration, or else the insult is due to some misunderstanding."

The speaker was Albert J. Beveridge, himself a one-time reporter. He continued:

"I know a reporter who went to a house the day after a wedding and said to the servant who answered his ring:

"'Can you let me have some details, please, of yesterday's ceremony?'

"The servant frowned.

"'No, I can't,' she said. 'They ate every crumb! And I think you ought to be ashamed, an able bodied young man like you, going around begging for cold details!'"—St. Paul Dispatch.

It is fraught with interest to Maryville.

It permits of only one answer.

It cannot be evaded or ignored.

A Maryville citizen speaks [illegible]s here,

THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow.

A harmless remedy, made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden Sage and Sulphur, combined with other valuable remedies for dry, harsh, faded hair, dandruff, itching scalp and falling hair. After a few applications of this simple, harmless remedy, your hair will gradually be restored to its natural color, in a short time the dandruff will be removed, and your hair will no longer come out but will start to grow as Nature intended it should.

Don't neglect your hair, for it goes further than anything else to make or mar your good looks. You can buy this remedy at any drug store for fifty cents a bottle, and your druggist will give your money back if you are not satisfied after trying. Purchase a bottle today, and never regret it when you [illegible] experience it will [illegible]. Agent Kuch [illegible].

REBEL COMMANDER BECAME INSOLENT

Sent Defiant Reply to Note of Warning From United States.

"WON'T LOOK WHERE WE SHOOT"

Rojas Says if Americans Help Federals, They Must Take Consequences—Armed Parties of Cowboys Leave for Front.

Douglas, Ariz., Sept. 13.—A large force of rebels, thought to be those in command of Antonio Rojas are camped within three miles of Agua Prieta. An exchange of shots took place between outposts.

Major Hardeman, commanding officer of the United States border forces here, immediately informed the war department and received in reply orders to warn both federals and rebels against firing on United States territory in the event of a engagement.

A copy of the order was served upon Gen. Sanjines commanding the federals, and a messenger was sent by automobile to convey the warning to the rebel leaders.

Entire Cavalry on Border.

Antonio Rojas sent a message of defiance in reply to the warning.

If the Americans insist on helping the federals they must [illegible] the consequences, was the substance of his answer.

Gen. Schuyler refused to make any statement regarding the matter.

To the messenger who took the notification from the war department, Rojas said: "We aren't going to look where we shoot."

The messenger reported that when he delivered the notification, Rojas declared it was a recognition of the belligerency of the rebels. Nearly the entire force of cavalry is being used in guarding the border. Alarming reports were received from El Tigre, where an attack by the combined forces of Salazar and Alanis is threatened.

El Tigre Asks Help.

Urgent telephone messages were received asking for federal troops to protect the 75 there from an expected attack by Salazar. American Consul Dye made a formal request for federal troops of Gen. Sanjines, but the latter gave the consul no definite reply.

Twenty-nine heavily armed well mounted American cowboys, each carrying 10,000 rounds of ammunition, led by E. S. O'Reilly, former newspaper man and soldier of fortune, left here presumably for Nacozari before daybreak. The departure of similar bands from Naco, Nogales and other border towns are reported.

Rebels Took Ojinaga.

Marfa, Tex., Sept. 13.—Ojinaga, Mexico, across the international boundary from Presidio, Tex., was surrendered to a rebel band late at night, and according to a secret agent of the Mexican government who came to Marfa from Presidio, Pasqual Orozco has established headquarters within the town.

NO GAS SHORTAGE IN OKLAHOMA

Deal Just Closed Calling for 18 Million Feet a Day—Plenty More Available.

Bartlesville, Ok., Sept. 13.—The biggest sale ever consummated in the Oklahoma field has just been closed between the Indian Territory Illuminating Oil company and the three smelter plants of this city. The company not only agrees to furnish 18,000,000 feet of gas a day to the smelters, but also agrees to furnish this city with factory gas.

The company has thousands of acres of the most productive gas territory already defined in the Osage country and has 30,000,000 feet of gas a day available at present. Work is to be started at once in the construction of a 12-inch line to the gas territory at an estimated cost of $100,000. The deal was hastened by the reported shortage of gas in the Hogshooter district.

Big Enrollment at Ottawa.

Ottawa, Kan., Sept. 13.—Ottawa university opened with an enrollment that promises to be larger than last year. The opening day address in the chapel was made by Henderson Martin, chairman of the Democratic state central committee. Dr. Rolvix A. Tokio, Sept. 13.—Philander C. Knox, the American secretary of state, who is here to attend the funeral of the late Emperor Mutsuhito as the special ambassador of President Taft, was given a handsomely embroidered screen by Emperor Yoshihito. The presentation was made through Baron Kurino.

Has Big Fire.

Belleville, Kan., Sept. 13.—Fire destroyed a large part of the town of Cuba. It started in the rear of Preble's implement store, destroying that building together with the postoffice and a millinery store. The origin is unknown. The loss is from $10,000 to $12,000, partly insured.

$16.00 for the Round Trip

During the past eight years over five hundred thousand American [illegible] have gone to Canada, and according to estimate of conservative authorities two hundred thousand more will do so this year.

Why? Because:

$7,040.00 will buy 320 acres in Canada annually yielding.....$5,312.00
$7,040.00 will buy 185 acres in Minnesota annually yielding..$2,753.00
$7,040.00 will buy 100 acres in Iowa anuually yielding.....$1,198.00
$7,040.00 will buy 46 acres in Illinois annually yielding.....$760.00

The Minnesota State Immigration office, compiling statistics from the report of the department of agriculture, shows the average value per acre of Minnesota land to be $37.97, and the average annual return as $14,88. The average value of Iowa land is $70.03, and the crop average $11.98, while the average of Illinois land is $152.58, and the crop returns $16.51.

According to the last Saskatchewan government grain report, the average of land in that province is $22.00 per acre, and the annual crop returns $16.55 per acre. Figure it out yourself, for that's why everybody's buying land in Canada; it's just good common sense well executed.

In Canada we have found the realms of future prosperity. Your opportunity is here measured only by your ambition. We urge you to join the next excursion, and see for yourself the marvelous crop now being harvested by those who heeded our call of one year ago.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapepsin" Makes Your Stomach Feel Fine in Five Minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

IN OLD-KENTUCKY

(Continued from page 1.)

tree stands that is fully six feet through. An uncle, 92 years old, who lives with his nieces, the Misses Burbank, used that old tree for a target when learning to shoot when a small boy.

Mr. Pickens took many pictures on his trip away, and those of this old house and surroundings are interesting as well as attractive.

Colonel Cabell of Virginia built the house and the Misses Burbank's grandfather, Colonel Charles Wynn Taylor, bought it from him a few years afterward, going from Louisville there, where game was very plentiful. Colonel Taylor was a great sportsman, and his Sugar Tree Grove Farm was a favorite meeting place of the sportsmen of that time. The house has twelve rooms, none less than 18x20 in size, and four large porches.

Many interesting old papers have been found in the attic of the old house from Washington, Lafayette, Madison and others. Among them, in an old rat hole, the commissions, on parchment, of the Misses Burbank's great-grandfather, Major Edmund Haynes Taylor—one as captain in a regiment of infantry in the United States army, signed by President Adams in 1799, and another as ensign in the "Legion," in the service of the United States, under the command of Major General Wayne, whose aid-de-camp he afterward became, signed by Secretary of War Knox in 1799. Major Edmund Haynes Taylor was a first cousin to President Madison and to President Zachary Taylor, and obtained for Zachary Taylor his commission into the army.

When Zachary Taylor became president he offered to Charles Wynn Taylor, the owner of Sugar Tree Grove Farm and grandfather of the present owners, any position in the government that he wished, but he lazily answered him: "Cousin Zachary, I would rather live here at Sugar Tree Grove Farm than accept any position in the U. S. government."

Charles Wynn Taylor, who made that remark, was the son of Edmund Thurston, daughter of the famous Haynes Taylor, who married Eloise "Fighting Parson," Charles Wynn Thurston of Virginia, who cast aside his gown, equipped a regiment and fought through the Revolutionary war.

Edmund Haynes Taylor, the great-granddaughter of the Misses Burbank, and his seven brothers, fought throughout the Revolutionary war; and their father's side, D. R. Burbank, their great-grandfather, equipped a regiment, taking with him his seven sons, who fought with him through the Revolutionary war. One was 9 years old, the drummer boy, who was their great-grandfather, and another a fifer, who was 11 years old.

Many celebrated men have been entertained at Sugar Tree Grove Farm, among them Audubon, the great naturalist and ornithologist. During the Civil war it was the scene of many an interesting encounter, a Union general once riding his horse into the hall, demanding that the place be searched for an uncle of the Misses Burbank, who was a confederate officer in Morgan's command, and a friend of his who, with him, had been hidden there on their escape from prison. However, the family had been warned in time to help them escape to the woods. It was also here that General John C. Breckenridge, a great friend of the Misses Burbank's father, and who had taken their father's tobacco cipher code as one of the cipher codes of the confederate army, sent his aide-de-camp, who, fearing to put down the cipher in writing, committed it to memory to Mr. Burbank, who took him out on the lawn and had him repeat it to him, and was able by its use to have great sums of money and ammunition sent into the confederate lines.

The Misses Burbank are great travelers and women of broad culture. They have made six trips around the world and will go again in 1913. A few years ago, when they were in the Sandwich islands, they were given a book to read about their Great-Grandfather Burbank and his sons, by a U. S. naval officer of a training ship, who said that copies of those little books had been sent to all the training ships to show what patriotism meant in those old days.

Governor Dixon of Kentucky was married in this old plantation home to his first wife, Miss Cabell. His third wife was a Miss Bullitt of Louisville, and their daughter married the Misses Burbank's brother.

Mr. E. E. Gootch has been the manager of Sugar Tree Grove Farm for thirty-one years. There is fine stock of all kinds, and some dogs that cost $3,000 each.

The Misses Burbank have spent nearly all their summers for the past twenty years in Europe. Their friends are our ambassadors and potentates of those countries, and they are a part of its court life.

While on his business trip to Kentucky Mr. Pickens took several kodak pictures of things and scenes that interested him. One is that of the largest gun that was used in the confederate service in the Civil war. It was named [illegible] and is now remounted on the exact spot it was last used, at the battle of Belmont, fought on the ground now occupied by the town of Columbus, Ky. The gun was burst at this battle, killing the gunner and several other soldiers standing near and wounding the man who gave the order to fire. The gun weighs 13,352 pounds and is a ten-inch gun. He brought home a half dozen minnie balls and some grape shot as trophies of his visit.

MADAM! IF YOU DON'T FEEL RIGHT TAKE DELICIOUS "SYRUP OF FIGS"

WASTE-CLOGGED BOWELS, TORPID LIVER AND DECAYING FOOD IN STOMACH CAUSE THE SICK HEADACHE, GAS, BACKACHE, SALLOWNESS, BILIOUSNESS AND INDIGESTION.

All women get bilious, headachy and constipated—simply because they don't exercise enough. They don't eat coarse food, or enough fruit and green vegetables. Those are nature's ways of keeping the liver and thirty feet of bowels active; but very few women employ them. The next best way is delightful, fruity Syrup of Figs.

Nearly all ills of women can be overcome with Syrup of Figs alone. There is no need to have sick headache, backache, dizziness, stomach sour and full of gases, bilious spells, sallowness, coated tongue, bad breath, bad complexion, nervousness and depression. The surest and safest remedy is one or two teaspoonfuls of delicious Syrup of Figs. Try this tonight—you'll feel splendid in the morning when the sour bile, clogged up waste and poisonous matter have been gently but thoroughly moved on and out of your system, without nausea, griping or weakness. Your head will be clear, complexion rosy, breath sweet, stomach regulated; no more constipation, gases, pains and aches.

It is simply a matter of keeping your stomach, liver and bowels clean and regular. Then you will always be well—always look and feel your best.

But get the genuine—the old reliable. Ask your druggist for "Syrup of Figs and Elixir of Senna." Refuse, with contempt, the so-called Fig Syrups sometimes substituted to fool you. The true, genuine, bears the names California Fig Syrup Company; look for this on the label.

FOR RENT—Cottage, close in. Good basement, well, city water, sewer connection, electric lights, 306 South Buchanan. See T. L. Wadley. 13-16

WILL BUY OR BUILD

DECISION REACHED AT CONFERENCE THURSDAY AFTERNOON.

TO PUSH THINGS ALONG

Board of Public Works, Sure of Its Ground Now, Will Waste no Unnecessary Time.

Since the board of public works received an opinion from their bond attorneys at Chicago that all of the proceedings of the council in regard to the bond issue were legal and that the bonds were approved, now it will be decided whether to buy the old plant or build a new plant.

So a meeting was held Thursday evening by the board of public works with the city council and the board informed the council what they had done. They gave them the reports of the engineers, the plans formulated for a new water plant, that the water company wants $54,000 for their plant, and that the engineers valued the plant at $39,000, and that it would take $90,000 to construct a new plant here. If a new plant is built the board has options on several sites.

The board within the next few days will hold another meeting with the water company, and if they don't come to time then the board will go ahead with making arrangements for the construction of a new plant, and will have the council issue the bonds for that purpose. When the council acts, if it should, for the construction of a new plant, then it will be too late to change to buy the old plant. This will also be the case if they decide to buy the old plant. So it is now either buy or build, and this matter will be decided by what course the water company will take.

Hancock of the Field-Lippman store is to give a series of recitals on the player piano for this brotherhood, beginning some time the last of October or the first of November, and will be assisted by talent from Hopkins and Maryville. Some very nice social affairs are being planned by the men of the Hopkins church for the coming year.

IS IT HYDROPHOBIA.

Sam Carrough Thinks That is What is Killing Some Horses.

Samuel Carrough, a well known stockman of Arkoe, who was at the stock yards in St. Joseph Thursday buying stock cattle, is inclined to the opinion that some of the deaths of horses reported in Northwest Missouri recently are the result of hydrophobia, says the Live Stock Journal.

"There is, as far as I have been able to find out, nothing to indicate that the horses which have died during the past week or two in Nodaway county were afflicted with the same disease that has been causing so much havoc in Kansas and Nebraska," said Mr. Carrough. "From what I have heard the horses that have died around Maryville had symptoms very similar to those manifested by hydrophobia in a herd of my cattle last winter. The cattle began dying of a strange disease last winter and I called five different veterinarians to treat the afflicted animals. Each of these had a different diagnosis and the cattle continued to die until I had lost eighteen. Finally two government men from the bureau of animal industry at South St. Joseph visited my farm to investigate the malady. Another steer was sick then and the experts killed it, cut it up and made a thorough examination without finding any trace of disease that might cause death. The brain and a few other vital organs of the animal were forwarded to Washington for further investigation. A few days later word came back that the biological experts had found that the cause of death was hydrophobia.

"My experience makes me think that at least some of the horses that have died were victims of hydrophobia."

DEATH OF MRS. WOLVERTON.

Passed Away in St. Joseph Wednesday Night—Funeral Held Friday Morning Near Hopkins.

The death of Mrs. James Wolverton, north of Hopkins, was a shock to her friends. Mrs. Wolverton was in her usual good health until last Friday night, when she was taken suddenly ill. The first of the week she was taken to Ensworth hospital at St. Joseph for an operation, and her friends expected a speedy recovery. However, a turn was taken for the worse, and Wednesday night she passed to the great beyond.

The remains were taken to Bedford Thursday noon, and from there to the home in the country. Mrs. Wolverton was a daughter of Mr. and Mrs. Jared of near Bedford, and was 24 years old. She leaves her husband, two children, aged 5 and 3 years, also her father and mother, three brothers, two sisters and a host of relatives and friends to mourn her untimely death.

The funeral services were held at the home Friday morning, burial in Hopkins cemetery.

A NEW LIGHT CONTRACT.

Present One for Street Lighting Will Expire in October—A White Way May Be Included.

In October the city council will probably make a new contract with the Electric Light company for street lights, as the present one will be out at that time. At present there are fifty-two arc light and sixty-seven incandescent lights in the city, which cost $385 a month.

Manager Hellmers stated Friday that the new contract with the city will be much cheaper in price than the old one. Another thing that will be taken into consideration in the new contract will be the proposed White Way for Main street.

The present contract was made with the city in October, 1907.

Returned From Montana.

Mr. and Mrs. S. C. Leach of Pickering returned Friday morning from a three weeks' trip to Fort Benton, Mont., visiting their daughters, Mrs. J. E. Kelley and Miss May Leech, who live nine miles east of Fort Benton. Miss Leech will prove up on her claim there the first of January and will then return home. Mr. and Mrs. Leech are delighted with the portion of Montana they visited, and say they have the finest gardens there that they ever saw, and brought home some potatoes that weigh two pounds each, a size no uncommon for garden raising there.

Tuesday, the First Real Show Day, is Devoted to the Old Folks and the Automobile Parade.

The street fair now is nearly a reality, and by Monday afternoon the big show will be ready to start. Many of the best shows on the road and also free acts will be here for the week, and there is plenty of other entertainment for the people.

During each day of the fair there will be eight free acts. These acts will be the Roman classical posing act, the quintet bicycle acts, the four flying DeAllens, and the Cornalils famous acrobats. In addition to the acts there will be plenty of music by the Maryville Concert band of twenty-five pieces and Miss Alma Nash's Ladies' Military band. Then there will be the poultry show, the vegetable and fruit exhibitions, farm and other machinery, and the big horse, mule and pony show. These are the free entertainments offered to the people. There will be a number of first class paid shows, all good, clean shows.

All car owners that will take part are urged to report at the electric light plant, at the corner of Fifth and Buchanan streets, at 1 o'clock. All cars in the county and surrounding counties are eligible to take part in the parade. The auto committee is composed of George McMurray, R. G. Sanders and G. B. Roseberry.

BUSTER BROWN IN TOWN.

Was Here Thursday and Gave Entertainment at Remus' Store—Tige Was Along.

Buster Brown of the Brown Shoe company of St. Louis was in Maryville Friday morning on his way to Savannah. He was dressed in a little gay red suit with brass buttons, red cap, black hose and the up-to-date boy's half shoes. He looked much older than he did a few years ago when he delighted the boys and girls of Maryville with himself and dog Tige. He seemed worn and tired this morning, and his little weazened face looked 70 years old. But he is as interesting as ever and was the special delight of some children at the train. He called all the little girls Mary Jane, of course, and had a pleasant word for them. He went about whistling, and when the train came in he went aboard singing, not to attract attention, apparently, but just because he is happy and couldn't help it.

Buster Brown is surely doing his part in the business world, for he carries into it the gospel of sunshine and good will wherever he goes. Men who were walking about the depot platform waiting for the train, eyes down, thinking about their business and not saying a word to any one, brightened up and smiled the instant Buster Brown appeared, and all were talking and watching him pleasantly as he darted about here and there looking about the checking of his baggage.

Buster Brown and his dog, Tige, gave a free entertainment at the C. F. Remus store on Thursday afternoon.

Is a Director in Elmo Bank.

Last week a deal was made whereby A. F. Harvey of this city, became owner of J. C. Colden's interest in the Farmers' and Merchants' bank of Elmo. Mr. Harvey was elected director of the bank in place of Mr. Colden, who resigned. The other directors of the bank are George P. Shoptaugh of Elmo, and S. G. Gillam of Maryville.

Mrs. W. A. Tindall and sons, Frank and Edward, went to St. Joseph Friday morning for a day's stay.

C. E. COLLINS ARRESTED.

The Charge is That He Made an Assault on His Daughter Last Week.

C. E. Collins of Graham was arrested Thursday by Deputy Sheriff Tilson on a charge of common assault, sworn out by his daughter, who alleged that her father struck her and beat her last week. It is also alleged that Collins was drunk at the time. Collins gave bond Thursday for $200 to appear at the November term of circuit court.

A divorce suit was also filed this week by Mrs. Collins against Mr. Collins, and the suit is an outcome of the assault made by him on their daughter. This case will also come up at the November term.

IN OLD KENTUCKY

MARYVILLE MAN HAS PLEASANT TRIP TO BLUE GRASS STATE.

VISITS HISTORIC HOUSE

Place is More Than a Century Old and is Rich With Reminiscences of the Revolution.

Speaking Tuesday of the chapter of the Daughters of the American Revolution about to be organized in Maryville reminded a reporter for The Democrat-Forum of a conversation he had a few days ago with Mr. George A. Pickens, just after his return from a business trip to Smith Mills, Henderson county, Kentucky.

Mr. Pickens' business trip there was in connection with one of the oldest and most historic homes in that county that is so rich in romance and history.

The residence is the occasional country home of two sisters, Miss Mary T. Burbank and Miss Anna Thurston Burbank, than whom it would be difficult to find any in all the land more eligible to membership in the Daughters of the American Revolution.

The Misses Burbank have a beautiful residence in Henderson, Ky., a few miles up the country from their country place. Henderson is a small city of 16,000, which is said to be the wealthiest town of its size in the United States.

The name of this country home of the Misses Burbank is "Sugar Tree Grove Farm." It contains 3,300 acres, and a part of the land is one of the original 1,000-acre tracts given to soldiers who fought all through the American Revolutionary war. The residence on the place is a typical plantation home and is over 100 years old. It is built of oak, every piece in it was sawed by hand, the window sash and door casings, and the ceiling grooved and beaded by hand.

The residence, the farm manager's cottage, servants' cottages, barns and granaries were fitted out with acetylene lighting.

Samuel Lowrey of Hopkins helped to install the plant in the residence and other buildings, and he said the old house is built like a battleship, and he thought he would never get through with his work there. The joists are of oak, 6x12 inches through.

The grounds are beautiful leading up to the residence, and about 100 yards in front of the house an old oak

BOUGHT MACHINERY

CONTRACT SIGNED BY LIGHT COMPANY FOR EQUIPMENT.

TO FURNISH HEAT OCT. 15

Work is to Commence at Once After Machinery is Received and Full Service Will Be Given.

A contract was signed Friday morning by the Electric Light company for the new machinery to be installed at the plant to furnish heat in the uptown business section of the city. The material and machinery will probably be here in ten days and work will commence at once to put it in so as service can start about the middle of October.

Enough customers were secured for the heat services as to warrant the investment by the light company. Many thousand dollars are to be spent on this service.

The conducts or mains are to be laid for the light plant to Main street along Fifth, and then on Main to the opera house block. From Main, the mains will be laid on Fourth to Market street, and also on Third to Buchanan street.

The light company was given permission by the council to use the streets to lay the mains after the company has put up sufficient bond that they would put back the streets in good condition.

DITCH IS NEARING QUITMAN.

Dredge Boat is Now Three Miles South of Burlington Junction.

The dredge boat on the Nodaway Drainage ditch is now working on the Fletcher Jones farm about a quarter of a mile south of the public road and about three miles southwest of Burlington Junction. The work has been delayed a little the past few days on account of the low stage of water in the new channel. To remedy this the force has been pumping water from the old channel into the new at the point on the Tibbetts farm, where the two channels run close together. They have been working the pump day and night and are getting sufficient water into the new channel to keep the big shovel right on the job.

It is probable that the Sternbergs will be given the contract for digging the ditch through the Bilby land, near Quitman, about a mile in length. Land owners in Monroe township are contemplating forming a company and engaging a dredge to straighten the channel from the Bilby land to a point south of Skidmore. If this should be done, Sternberg & Sons, in all probability, would receive the contract, as their machine would be right on the ground, and the moving of a dredge the size that is required to work in the Nodaway channel is a very expensive job.

Home From the Black Hills.

Miss Marie Byers returned Thursday night from a six weeks' trip to the Black Hills and various points in North and South Dakota. Miss Byers visited while in South Dakota at Rapid City, with the family of her father's nephew, Clay Oliver, who formerly lived in Maryville.

IS NOT CONTAGIOUS

VETERINARIAN SAYS NO DANGER OF DISEASE SPREADING.

SAFE TO BRING HORSES

Danger is Not From Infected Animals But Comes From Pastures—Many Horses Are Dead.

"This horse disease is not a contagious disease and there is no danger of horses catching it from one another," said Dr. G. H. Leach, deputy state veterinary Friday morning.

Much fear had been entertained by the street fair committee in regard to the horse show that will take place on Wednesday and Thursday mornings that there would not be many to compete for the special premiums, but Dr. Leach said Friday that there is no more danger of the horse disease here than there is at home. He said:

"I considered it very safe to [illegible] your horses to Maryville for the show next week. There is no [illegible] at all and they will be as safe here as they are at home. The disease is not contagious, if it was it would spread through a whole herd of horses, instead of attacking one horse here and there."

There are no new cases, Dr. Leach said today.

The two horses that were sick at Pickering of the disease that is prevalent just now, owned by Ed Foreman and Johnson [illegible] were killed Friday [illegible] horse is reported [illegible] vicinity, owned [illegible]kidmore has lost two others sick, and Jose[illegible] of the same locality has one horse sick.

Following are those who have lost horses in the Burlington Junction locality from the disease: [illegible] W. W. Jones, Lem Brown, Earl Brown, Irvin Bailey, Dr. F. M. Ryan of Quitman, Mr. Davis of near Clearmont. Two more of Mr. Bishop's horses are sick, and J. A. Speer, living north of Burlington Junction, has a fine mare almost dead of the malady.

At Elmo this dreaded disease has killed a few horses. Zack Johnston, E. A. Bailey, T. R. Livengood, Earl Hooper, Bull Davis, Bud Sutton, Dallas Hurst and probably others have had losses, and there may be others that we have not heard of.

PLAGUE IS NOT CONTAGIOUS.

State Veterinarian Reports Cause Probably Due to Food or Water.

Regarding the horse plague, T. C. Wilson, secretary of the Missouri board of agriculture, issued this statement:

"Owing to the loss of many horses in Western Kansas and in a few other states there has been for several days some fear that it might become necessary for Missouri, through its board of agriculture, to institute a quarantine. However, at this time it is neither necessary nor advisable. Dr. S. Sheldon, state veterinarian for Missouri, who is now at Dodge City, Kan., making a personal investigation as to the cause of the deaths among horses, has wired that he has been with government experts throughout the day and that it is the opinion of all that there is nothing to warrant a quarantine. The scientists who have been conducting the investigation now are thoroughly convinced that [illegible] horse stock in the [illegible] is not caused by [illegible] but grows out of [illegible] conditions in the food or water supply."

Attended Funeral.

Mr. and Mrs. George Demott and daughter went to Hopkins Friday to attend the funeral of Mrs. W. S. Miles, who died Wednesday morning.

Governor Hadley's accomplishments are being [illegible] now, and by the time he gets through performing with the bull moose the elephant and the chances are his political neck will be dislocated in several places.

The little boy who threw away his prize package in order to get a bigger one, and found that it was empty, can sympathize with the Republican county nominees who discarded the elephant for the bull moose and now find he is not big enough to carry all of them.

A few days ago prime sirloin of beef sold in London for 19½ cents per pound, and in New York on the same day for 28 cents per pound. The farmer gets the same price for his cattle whether the steak sells for 19 cents in London or 28 cents in this country. Owing to the blessings of a protective tariff he gets whatever the trust is disposed to give him, a price that will enable this benevolent trust to haul the meat to the seaboard and across three thousand miles of water and sell it at 9 cents a pound less than it can be sold for in our own country. Here is a "blessing" that should set both the buyer and producer of meat to thinking.

Colonel Roosevelt's present campaign seems to be the outgrowth of a determination reached several years ago. When he expounded his doctrine of "nationalism" in his famous Kiwatomie speech he evidently had in mind the formation of a new party. If this was the case and he never abandoned that idea, he must have gone into his race for the Republican nomination against Mr. Taft last spring as a predetermined bolter. Had he succeeded in winning the nomination, would he have kept the Republican faith or would he have used his power to found a new political cult? The Republican leaders evidently believed he was not a safe Republican, hence [illegible] nominee.

THE ONLY WAY.

[illegible]chance for a new party is [illegible] parties should be discouraged. The old parties is [illegible] shall not be. "The reporter's life is a happy one. When he suffers an indignity, the cause of that indignity is usually beneath consideration, or else the insult is due to some misunderstanding."

The speaker was Albert J. Beveridge, himself a one-time reporter. He continued:

"I know a reporter who went to a house the day after a wedding and said to the servant who answered his ring:

"'Can you let me have some details, please, of yesterday's ceremony?'

"The servant frowned.

"'No, I can't,' she said. 'They ate every crumb! And I think you ought to be ashamed, an able bodied young man like you, going around begging for cold details!'"—St. Paul Dispatch.

THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow.

A harmless remedy, made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage & Sulphur Hair Remedy, a preparation of common garden Sage and Sulphur, combined with other valuable remedies for dry, harsh, faded hair, dandruff, itching scalp and falling hair. After a few applications of this simple, harmless remedy, your hair will gradually be restored to its natural color, in a short time the dandruff will be removed, and your hair will no longer come out but will start to grow as Nature intended it should.

Don't neglect your hair, for it goes further than anything else to make or mar your good looks. You can buy this remedy at any drug store for fifty cents a bottle, and your druggist will give your money back if you are not satisfied after using. Purchase a bottle today, and you will never regret it when you see the difference it will make in your appearance.

REBEL COMMANDER BECAME INSOLENT

Sent Defiant Reply to Note of Warning From United States.

"WON'T LOOK WHERE WE SHOOT"

Rojas Says if Americans Help Federals, They Must Take Consequences—Armed Parties of Cowboys Leave for Front.

Douglas, Ariz., Sept. 13.—A large force of rebels, thought to be those in command of Antonio Rojas are camped within three miles of Agua Prieta. An exchange of shots took place between outposts.

Major Hardeman, commanding officer of the United States border forces here, immediately informed the war department and received in reply orders to warn both federals and rebels against firing on United States territory in the event of a engagement.

A copy of the order was served upon Gen. Sanjines commanding the federals, and a messenger was sent by automobile to convey the warning to the rebel leaders.

Entire Cavalry on Border.

Antonio Rojas sent a message of defiance in reply to the warning.

If the Americans insist on helping the federals they must [illegible] the consequences, was the substance of his answer.

Gen. Schuyler refused to make any statement regarding the matter.

To the messenger who took the notification from the war department, Rojas said: "We aren't going to look where we shoot."

The messenger reported that when he delivered the notification, Rojas declared it was a recognition of the belligerency of the rebels. Nearly the entire force of cavalry is being used in guarding the border. Alarming reports were received from El Tigre, where an attack by the combined forces of Salazar and Alanis is threatened.

El Tigre Asks Help.

Urgent telephone messages were received asking for federal troops to protect the 75 there from an expected attack by Salazar. American Consul Dye made a formal request for federal troops of Gen. Sanjines, but the latter gave the consul no definite reply.

Twenty-nine heavily armed well mounted American cowboys, each carrying 10,000 rounds of ammunition, led by E. S. O'Reilly, former newspaper man and soldier of fortune, left here presumably for Nacozari before daybreak. The departure of similar bands from Naco, Nogales and other border towns are reported.

Rebels Took Ojinaga.

Marfa, Tex., Sept. 13.—Ojinaga, Mexico, across the international boundary from Presidio, Tex., was surrendered to a rebel band late at night, and according to a secret agent of the Mexican government who came to Marfa from Presidio, Pasqual Orozco has established headquarters within the town.

NO GAS SHORTAGE IN OKLAHOMA

Deal Just Closed Calling for 18 Million Feet a Day—Plenty More Available.

Bartlesville, Ok., Sept. 13.—The biggest sale ever consummated in the Oklahoma field has just been closed between the Indian Territory Illuminating Oil company and the three smelter plants of this city. The company not only agrees to furnish 18,000,000 feet of gas a day to the smelters, but also agrees to furnish this city with factory gas.

The company has thousands of acres of the most productive gas territory already defined in the Osage country and has 30,000,000 feet of gas a day available at present. Work is to be started at once in the construction of a 12-inch line to the gas territory at an estimated cost of $100,000. The deal was hastened by the reported shortage of gas in the Hogshooter district.

Big Enrollment at Ottawa.

Ottawa, Kan., Sept. 13.—Ottawa university opened with an enrollment that promises to be larger than last year. Has Big Fire.

Belleville, Kan., Sept. 13.—Fire destroyed a large part of the town of Cuba. It started in the rear of Preble's implement store, destroying that building together with the post-office and a millinery store. The origin is unknown. The loss is from $10,000 to $12,000, partly insured.

...e Advantage of Our Canada Excursion

Leaving Maryville Tuesday, Sept. 17 and 24
$16.00 for the Round Trip

During the past eight years over five hundred thousand American ...rmers have gone to Canada, and according to estimate of conservative authorities two hundred thousand more will do so this year.

Why? Because:

$7,040.00 will buy 320 acres in Canada annually yielding.....$5,312.00
$7,040.00 will buy 185 acres in Minnesota annually yielding...$2,753.00
$7,040.00 will buy 100 acres in Iowa anuually yielding.....$1,198.00
$7,040.00 will buy 46 acres in Illinois annually yielding.....$760.00

The Minnesota State Immigration office, compiling statistics from the report of the department of agriculture, shows the average value per acre of Minnesota land to be $37.97, and the average annual return as $14,88. The average value of Iowa land is $70.03, and the crop average $11.98, while the average of Illinois land is $152.58, and the crop returns $16.51.

According to the last Saskatchewan government grain report, the average of land in that province is $22.00 per acre, and the annual crop returns $16.55 per acre. Figure it out yourself, for that's why everybody's buying land in Canada; it's just good common sense well executed.

In Canada we have found the realms of future prosperity. Your opportunity is here measured only by your ambition. We urge you to join the next excursion, and see for yourself the marvelous crop now being harvested by those who heeded our call of one year ago.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapepsin" Makes Your Stomach Feel Fine in Five Minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

IN OLD-KENTUCKY

(Continued from page 1.)

tree stands that is fully six feet through. An uncle, 92 years old, who lives with his nieces, the Misses Burbank, used that old tree for a target when learning to shoot when a small boy.

Mr. Pickens took many pictures on his trip away, and those of this old house and surroundings are interesting as well as attractive.

Colonel Cabell of Virginia built the house and the Misses Burbank's grandfather, Colonel Charles Wynn Taylor, bought it from him a few years afterward, going from Louisville there, where game was very plentiful. Colonel Taylor was a great sportsman, and his Sugar Tree Grove Farm was a favorite meeting place of the sportsmen of that time. The house has twelve rooms, none less than 18x20 in size, and four large porches.

Many interesting old papers have been found in the attic of the old house from Washington, Lafayette, Madison and others. Among them, in an old rat hole, the commissions, on parchment, of the Misses Burbank's great-grandfather, Major Edmund Haynes Taylor—one as captain in a regiment of infantry in the United States army, signed by President Adams in 1799, and another as ensign in the "Legion," in the service of the United States, under the command of Major General Wayne, whose aid-de-camp he afterward became, signed by Secretary of War Knox in 1799. Major Edmund Haynes Taylor was a first cousin to President Madison and to President Zachary Taylor, and obtained for Zachary Taylor his commission into the army.

When Zachary Taylor became president he offered to Charles Wynn Taylor, the owner of Sugar Tree Grove Farm and grandfather of the present owners, any position in the government that he wished, but he lazily answered him: "Cousin Zachary, I would rather live here at Sugar Tree Grove Farm than accept any position in the U. S. government."

Charles Wynn Taylor, who made that remark, was the son of Edmund Thurston, daughter of the famous Haynes Taylor, who married Eloise "Fighting Parson," Charles Wynn Thurston of Virginia, who cast aside his gown, equipped a regiment and fought through the Revolutionary war.

Edmund Haynes Taylor, the great-granddaughter of the Misses Burbank, and his seven brothers, fought throughout the Revolutionary war; and their father's side, D. R. Burbank, their great-grandfather, equipped a regiment, taking with him his seven sons, who fought with him through the Revolutionary war. One was 9 years old, the drummer boy, who was their great-grandfather, and another a fifer, who was 11 years old.

Many celebrated men have been entertained at Sugar Tree Grove Farm, among them Audubon, the great naturalist and ornithologist. During the Civil war it was the scene of many an interesting encounter, a Union general once riding his horse into the hall, demanding that the place be searched for an uncle of the Misses Burbank, who was a confederate officer in Morgan's command, and a friend there on their escape from prison. However, the family had been warned in time to help them escape to the woods. It was also here that General John C. Breckenridge, a great friend of the Misses Burbank's father, and who had taken their father's tobacco cipher code as one of the cipher codes of the confederate army, sent his aide-de-camp, who, fearing to put down the cipher in writing, committed it to memory to Mr. Burbank, who took him out on the lawn and had him repeat it to him, and was able by its use to have great sums of money and ammunition sent into the confederate lines.

The Misses Burbank are great travelers and women of broad culture. They have made six trips around the world and will go again in 1913. A few years ago, when they were in the Sandwich Islands, they were given a book to read about their Great-Grandfather Burbank and his sons, by a U. S. naval officer of a training ship, who said that copies of those little books had been sent to all the training ships to show what patriotism meant in those old days.

Governor Dixon of Kentucky was married in this old plantation home to his first wife, Miss Cabell. His third wife was a Miss Bullitt of Louisville, and their daughter married the Misses Burbank's brother.

Mr. E. E. Gootch has been the manager of Sugar Tree Grove Farm for thirty-one years. There is fine stock of all kinds, and some dogs that cost $3,000 each.

The Misses Burbank have spent nearly all their summers for the past twenty years in Europe. Their friends are our ambassadors and potentates of those countries, and they are a part of its court life.

While on his business trip to Kentucky Mr. Pickens took several kodak pictures of things and scenes that interested him. One is that of the largest gun that was used in the confederate service in the Civil war. It was named "Jeff Davis," and is now mounted on the exact spot it was last used, at the battle of Belmont, fought on the ground now occupied by the town of Columbus, Ky. The gun was burst at this battle, killing the gunner and several other soldiers standing near and wounding the man who gave the order to fire. The gun weighs 13,352 pounds and is a ten-inch gun. He brought home a half dozen minnie balls and some grape shot as trophies of his visit.

MADAM! IF YOU DON'T FEEL RIGHT TAKE DELICIOUS "SYRUP OF FIGS"

WASTE-CLOGGED BOWELS, TORPID LIVER AND DECAYING FOOD IN STOMACH CAUSE THE SICK HEADACHE, GAS, BACKACHE, SALLOWNESS, BILIOUSNESS AND INDIGESTION.

All women get bilious, headachy and constipated—simply because they don't exercise enough. They don't eat coarse food, or enough fruit and green vegetables. Those are nature's ways of keeping the liver and thirty feet of bowels active; but very few women employ them. The next best way is delightful, fruity Syrup of Figs.

Nearly all ills of women can be overcome with Syrup of Figs alone. There is no need to have sick headache, backache, dizziness, stomach sour and full of gases, bilious spells, sallowness, coated tongue, bad breath, bad complexion, nervousness and depression. The surest and safest remedy is one or two teaspoonfuls of delicious Syrup of Figs. Try this tonight—you'll feel splendid in the morning when the sour bile, clogged up waste and poisonous matter have been gently but thoroughly moved on and out of your system, without nausea, griping or weakness. Your head will be clear, complexion rosy, breath sweet, stomach regulated; no more constipation, gases, pains and aches.

It is simply a matter of keeping your stomach, liver and bowels clean and regular. Then you will always be well—always look and feel your best.

But get the genuine—the old reliable. Ask your druggist for "Syrup of Figs and Elixir of Senna." Refuse, with contempt, the so-called Fig Syrups sometimes substituted to fool you. The true, genuine, bears the names California Fig Syrup Company; look for this on the label.

FOR RENT—Cottage, close in. Good basement, well, city water, sewer connection, electric lights, 306 South Buchanan. See T. L. Wadley. 13-16
